07

Catalogue No. S-LOK Oct.2020

Features

- All instrument thread fittings are designed in accordance with ASME B31.3 for instrument and process.
- Male thread are protected with cap.
- Burr-free internal and outside surfaces.
- NPT threads are based on requirement of ASME B1.20.1

Material Standards & Temperature Ratings

Material	Bar Stock	Forgings	Temperature
SS316	ASTM A479, ASTM A276	ASTM A182	-325°F to 1200°F (-198°C to 648°C)
Brass	ASTM B16, ASTM B453	ASTM B283	-325°F to 400°F (-198°C to 204°C)
Carbon steel	ASTM A108, JIS G4051	JIS G4051	-20°F to 350°F (-29°C to 176°C)

- Pressure ratings listed are for temperature up to 37.8C (100 °F).
- Based on Pressure Pipe Code ASME B31.3 pressure rating is calculated with an allowable stress value of 20,000psi for SS316, 10,000psi for Brass 20,000psi for Carbon Steel.
- To determine the working pressure in accordance with Power Pipe Code ASME B31.1, multiply psig by 0.94. Brass pressure ratings remain the same.
- Due to larger outer diameter of female threads rating of female are lower than male threads.
- To determine kPa rating, multiply psig by 6.89.
- Reducing Hex Bushing (P-SHB) pressure rating is not covered in this table. See the pressure rating in the dimensional data chart.

Fusible Plug

Features

- Fusible plugs consist of 316 stainless steel body and eutectic alloy with a specific melting point.
- When fusible plug is exposed to a temperature above its melting point, the eutectic alloy melts and the pressure inside the fitting is released to atmosphere.
- Fusible plugs are used where heat can cause a fire or an explosive chemical reaction.
- Fusible plugs are mainly installed onto compression cylinders, oil, liquified gas and steam boilers.

Snubber Fitting

Features

- Snubber fittings protect gauges and instruments from system pressure surge and shock.
- Snubber fitting consists of 316 stainless steel or brass body and sintered 316 stainless steel element.
- Pressure damping is accomplished through sintered 316 stainless steel element.

Vent Protector

Features

- S-LOK vent protectors, more commonly known as mud dauber fittings, protect open ends of instrument, tubing, outlet vent, and bleed-off lines.
- The mesh wire screen prevents foreign object, such as mud insects, from entering and clogging various systems and causing damage.
- Vent protectors are available in stainless steel and brass.
- Dimensions are for reference only and are subject to change without prior notice.

Instrument Weld Fittings

Features

- S-LOK instrument weld fittings are designed in accordance with ASME B16.11 welding connections.
- All socket weld ports have a tapered shape at the end that hold tubing properly and consistent alignment.
- Pressure ratings for weld fittings are in accordance with ASME B31.3 and safety factor 4:1
